DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, claims 1-16 in Paper No. 8 is acknowledged.
Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claim 17-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No.8.
3. Upon further inspection of applicant's disclosure and claims, the following restriction requirement is applied.
4. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - Species I, as illustrated in Fig. 1
 - Species II, as illustrated in Fig. 2
 - Species III, as illustrated in Fig. 3
 - Species IV, as illustrated in Fig. 4
 - Species V, as illustrated in Fig. 5
 - Species VI, as illustrated in Fig. 6
 - Species VII, as illustrated in Fig. 7

Species VIII, as illustrated in Fig. 8

Species IX, as illustrated in Fig. 9

Species X, as illustrated in Fig. 10

Species XI, as illustrated in Fig. 11

Species XII, as illustrated in Fig. 12

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim I is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the
